## Skills

- **Languages:** JavaScript, C, Python, Java
- **Frontend:** React.js, Tailwind CSS, HTML5, CSS3, Vite, Next.js
- **Blockchain & Web3:** Ethers.js, RainbowKit, Sepolia Testnet
- **Technologies:** Git, GitHub, Vercel, Render, Firebase

## Project Work

- **CareerCompass – AI-Powered Career Guidance Platform**
  Built an AI-powered career guidance platform using React, Firebase, and Gemini AI with secure authentication and real-time user data.
  Designed dynamic career roadmaps and curated learning opportunities across multiple domains.

- **ZenCue – Neurodivergent-Friendly Productivity Tool**
  Developed an accessibility-first productivity app using GROQ APIs for text, image, and voice-based explanations.
  Implemented screen capture, image analysis, and calm UI interactions using React, Flask, and Tailwind CSS.

- **TrustBridge – Decentralized P2P Lending Platform**
  Built a Web3 lending prototype with wallet-based authentication and loan management on Sepolia testnet.
  Implemented trust-score generation using KYC/financial documents with Firebase-backed verification.

## Experience

- **Web Developer Intern — SkillCraft Technology (1 Month)**
  Developed responsive frontend components using React and Tailwind CSS; collaborated on feature development and deployments.
- **GDG on Campus (GDGoC) BCREC — Lead**
  Leading a campus developer community by organizing technical events, workshops, and mentoring peers on Google technologies.

## Education

**Dr. BC. Roy Engineering College** Aug, 2023 – Present

B. Tech in Computer Science and Engineering

## Awards and Certificates

- **HackHazards 2025 – The Namespace Community**
  Participated in a global community hackathon focused on AI, Web3, and infrastructure (Apr 2025).
- **NSHM x OSSDC – Code for Change 24-Hour Hackathon**
  Participated in a 24-hour hackathon focused on real-world problem solving (Mar 2025).
- **JGEC Winter of Code 2025 (Open Source Contribution Program)**
  Contributed to open-source projects as a mentee, collaborating with maintainers and following OSS workflows.
